Short Bio (Side Line Magazine Extracts)

***The sound of Kentin Jivek has seriously evolved throughout the years, although remained faithful to the main influences based upon mysterious atmospheres and psychedelic. There's a solid cinematographic style running through the songs.**

***Kentin Jivek's work is characterized by charismatic vocals. The songs have been sung in English and in French, revealing a kind of dark and somewhat intellectual poetry approach.**

"Summoned Summoners" is a delicate release filled with reverie and melancholia.

***Kentin Jivek has created his own sound and perception of Experimental Folk mixed with ambient music. His charismatic vocals remain one of the main strengths of the work. The minimalism of the arrangements is Absolutely worthy of examination.**

***His music is the result from a sonic fusion between very different genres, or at least music styles you don't exactly expect to get merged together.**

***The musician's approach is driven by an accomplished experimental electronic treatments and noises in the purest glitch tradition.**

***This minimalism is original and definitely a challenge.**

If you're in search of something different, an artist composing his music in a different approach and with another dimension, you better can try this artist.
